Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.lightyear.net

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Describe consumer outreach efforts in the past 12 months: Lightyear Network Solutions, LLC ("Lightyear") maintains a public website displaying its entire selection of handsets and devices, including those that are HAC-compliant. Lightyear's sales staff can assist all existing and prospective customers looking for an HAC-complaint device/handset. Handset packaging inserts or operations manual will also provide this information. For newer, Wi-Fi capable handsets, customers are informed which handsets have been tested and rated for use with hearing aids, but that there may be some newer wireless technologies used in these phones that have not been tested yet for use with hearing aids.

Methodology for Functionality Levels

Lightyear Network Solutions, LLC ("Lightyear") offers HAC-compatible handsets and devices in all major price categories, including low-cost ("C" level) (<\$100), moderate-cost ("B" level") (\$100-\$250), and high-end/feature-rich ("A" level) (>\$250). Costs generally correlate with the number of features, but, if though experience, Lightyear finds that a certain handset contains features that work well with hearing aids, such as volume control, it will be labeled accordingly with an "A" level for functionality. Lightyear's sales staff is trained to assist all existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality," but typically at least one (1) HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.
